24-Hour Hotlines & Informational Websites

Eastern Shore Operations Center (ESOC)

Serves as the behavioral health emergent, urgent and information and referral call center for all nine counties of the Eastern Shore: Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico and Worcester Counties. The ESOC is available 24 hours a day, 7 days a week to assess and respond to calls from consumers, family members, community members, businesses and human services agencies. ESOC staff provide linkage to community resources through referral to all appropriate and existing behavioral health and human services.

1-888-407-8018

Mobile Crisis Teams (MCT)

Two regional Mobile Crisis Teams (MCT) cover eight (8) counties of the Eastern Shore: Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot and Wicomico. Mobile Crisis Team members intervene with callers referred from the ESOC who are experiencing a mental health emergency. Mobile Crisis Teams assist law enforcement and emergency responders, providing behavioral health crisis consultation and intervention to stabilize the consumer in the least restrictive environment through a range of services including assessment, crisis intervention, supportive counseling, information and referrals, linkage with appropriate community based mental health services for ongoing treatment, and follow up. To access the Mobile Crisis Teams, call the ESOC

1-888-407-8018

Life Crisis Center Hotline

Provides counseling for victims of domestic violence or sexual assault, suicide prevention, support groups, emergency shelter, shelter referral, medical care, and assistance with the process of prosecution.

1-800-422-0009 or 410-749-HELP

Suicide Hotline

Provides counseling for suicide prevention 1-800-SUICIDE or 410-749-9424

Youth Crisis Hotline

Crisis intervention, support and referrals. 1-800-422-0009

For All Seasons, Inc. Hotline

Counseling, advocacy, and education to victims of rape, sexual assault and abuse. 1-800-310-7273

Mid-Shore Council on Family Violence

Provides direct services for victims of family violence including a 24-hour hotline, crisis intervention, counseling, support group, emergency shelter, client advocacy, children's program, court accompaniment, information and referral. 1-800-927-4673

Maryland State (AIDS) Hotline

Information on testing and other referrals. Monday through Friday - 9 AM to 5 PM (Except Holidays)

1-800-638-6252 Hearing Impaired: 1-800-553-3140

Americans with Disabilities Act Hotline

Provides information on the Americans with Disabilities Act. 1-800-USA-ABLE (872-2253)

Network of Care

A Web-Based Internet Tool for Mental Health, a mental health resource for everyone, including a provider service network, a medical library, resource/veterans' links and support/advocacy group contacts.

Sponsored By: Department of Health & Mental Hygiene; Transformation Project and Mid-Shore Mental Health Systems, Inc. www.networkofcare.org

Chesapeake Helps

Information and referral specialists are available to help callers find non-profit local services in their county. 1-866-722-HLPS (4577) www.chesapeakehelps.org

INTRODUCTION TO THE GUIDE

The Mid-Shore Mental Health Systems, Inc. (MSMHS) is pleased to present the 2010 edition of the *GUIDE TO MENTAL HEALTH SERVICES IN CAROLINE, DORCHESTER, KENT, QUEEN ANNE'S AND TALBOT COUNTIES, MARYLAND*. This guide, while not inclusive of every service or mental health provider in the five-county area, represents our effort to help the citizens of the region become more aware of the services that are available to them.

MSMHS is a private, not-for-profit 501(c) (3) organization, serving Caroline, Dorchester, Kent, Queen Anne's and Talbot Counties. MSMHS was incorporated in 1993 through a collaboration of the five county governments and mental health stakeholders.

The Board of Directors consists of ten members appointed by the five local governments, five at-large members, and three charter members representing all stakeholders, specifically consumers and families of consumers.

Mission

To continually improve the provision of mental health services for residents of Caroline, Dorchester, Kent, Queen Anne's and Talbot Counties through effective coordination of services in collaboration with consumers, family members, providers and community leaders.

We believe that the mental health system should assure quality, cost-effective services that meet the needs of our consumers. Consumers are the focus of MSMHS, and it is our goal through partnership with other agencies to develop a full array of easily accessible services for the consumer. We strongly believe in the empowerment of individuals, consumers and family members to help develop their fullest potential.

Vision

The vision of Mid-Shore Mental Health Systems, Inc. is to develop a model rural mental health delivery system with a continuum of mental health services that are culturally diverse. These services assure consumer empowerment, have a community focus, are cost-effective for the system and are integrated to serve the community as a whole, private and public sector, regardless of cultural or ethnic background.

What is a CSA?

We are a Core Service Agency (CSA), the local mental health authority under contract with the State of Maryland's Mental Hygiene Administration (MHA), Department of Health and Mental Hygiene Administration (DHMH). The Annotated Code of Maryland Health General Article 10-1202 and 1203 mandates CSAs. As such, our responsibility is to plan, manage and monitor publicly-funded medically necessary mental health services in the five-county region for consumers of all ages: children, adolescents, adults and the geriatric population.

On the local level, the CSA assures that mental quality health services are developed, and that the needs of the consumer are met. The CSA acts as county government's agent to meet the needs of county residents under a letter of agreement. We work collaboratively with all county agencies such as the Local Management Boards, Departments of Social Services, Education, etc.

What is the funding source?

The Mental Hygiene Administration allocates funding for each jurisdiction which includes state dollars and Medical Assistance funding. The total expenditure for the Public Mental Health System (PMHS) in the mid-shore region is approximately \$16 Million.

ValueOptions is the organization under contract with MHA to process claims, enroll consumers, pre-authorize medically necessary services, credential providers and pay claims.

Who are the Consumers in the PMHS?

The Public Mental Health System (PMHS) provides for medically necessary services for the Medical Assistance recipient and for some individuals who are uninsured (Medical Assistance Ineligible).

Who are the Providers in the PMHS?

Providers in our system include: state psychiatric hospitals, acute hospitals, residential treatment centers, outpatient mental health clinics, psychiatric rehabilitation programs, partial hospitalization services, intensive outpatient services and private providers. (See pages 5-20 for information about providers located in the Mid-Shore region.)

Acronyms & Other Terms

CSI - Community Service Initiative - child's treatment team needs to develop a community plan that will serve the child's needs and costs less than \$70,000 per year with local agency match funding.

CSA - Core Service Agency

CSR - Customer Service Representative

CVI - Chesapeake Voyagers Inc.

DHMH - Department of Health and Mental Hygiene

EBP- Evidence Base Practice

ESOC- Eastern Shore Operations Center

FIS - Family Intervention Specialist - This is a collaborative project with Department of Juvenile Justice. A mental health professional serves on the team with Department of Juvenile Services Case Managers to provide community support to youth to prevent out of home placement.

IAC - Inter-Agency Committee - The purpose of this committee is to discuss children who are causing concern in the school or the community and develop plans to improve his/her function in these areas.

IFPS - Interagency Family Preservation Services - This service is to help prevent out-of-home placement for youth who are at imminent risk of removal from their homes.

IOP - Intensive Outpatient Program

LCC - Local Coordinating Council - The role of the LCC is to ensure that community alternatives have been exhausted before a child is placed in institutional care. If appropriate community services will be developed to prevent placement in institutional care.

LMB - Local Management Board

MA - Medical Assistance

Cont'd Acronyms & Other Terms

- MAI** - Medical Assistance Ineligible (formerly called and still referred to as Gray Zone or GZ)
- MCO** - Managed Care Organization
- MCSS** – Mobile Crisis Stabilization Services
- MCT** – Mobile Crisis Teams
- MHA** - Mental Hygiene Administration
- MSMHS** - Mid-Shore Mental Health Systems, Inc.
- Multi-D** - The Multi-Disciplinary Team - the purpose is to discuss cases from Child Protective Service or IAC that had multi-agency involvement.
- OMHC** - Outpatient Mental Health Clinics
- PAC** - Primary Adult Care
- PHP** - Partial Hospitalization Programs
- PMHS** - Public Mental Health System
- PRP** - Psychiatric Rehabilitation Program
- Rehab Option** - For a child at risk of out of home placement because of mental illness.
- RRP** - Residential Rehabilitation Program
- RTC** - Residential Treatment Center
- SEP** - Supported Employment Program
- SSDI** - Social Security Disability Insurance
- SSI** - Supplemental Security Income
- TAY** - Transitional Age Youth Project - A state funded grant to assist youth from 16 to 22 in transitioning to independent living. Youth are to have been in RTC or at risk of going to RTC. Emphasis is on education, community integration and building a natural support system.

MSMHS can assist you by providing information regarding:
Area resources; other agencies in the area; and consumer services supported by MSMHS
including:

- direct consumer needs fund
- pharmacy for those ineligible for Medical Assistance
- transportation assistance

MSMHS can also assist with concerns you may have regarding the services you or a family member are receiving. We first encourage you to discuss your concerns directly with the provider. However, if you feel you need help, please call our office.

If you have been denied a service by APS Healthcare, Inc., you have the right to appeal that decision. Please refer to the *Grievances and Appeals* section of this guide for more information.

Forensic Mental Health Program

Mid-Shore Mental Health Systems, Inc.
c/o Judge's Chamber
11 N. Washington St.
Easton, MD 21601
410-770-4665/Fax 410-770-4467
Coordinator: Jan Willis, LCSW-C (jwillis@msmhs.org)
Case Manager: Michelle Mohr (mmohr@msmhs.org)

The Forensic Mental Health Program works with the Circuit and District Courts on the Mid-Shore to assist when defendants before the courts have mental illnesses. Services include diversion, assessment and referral, resource coordination, law enforcement training and treatment monitoring.

Forensic Resources

Maryland Community Criminal Justice Treatment Program (MCCJTP)

MCCJTP is a State funded program jail based mental health program that targets individuals 18 and older who have a serious mental illness, such as, schizophrenia, major affective disorder, organic mental disorder, and other psychotic disorders. MCCJTP more commonly referred to as the "jail program" is administered in all five counties of the Mid Shore region as well as 18 additional jurisdictions in the State. Common goals among participating jurisdictions include:

- Identify individuals in the criminal justice system who have severe and persistent mental illness or who are at risk for re-hospitalization at a psychiatric facility.
- Deliver clinically appropriate mental health services to identified individuals
 - Health services are delivered in cooperation with the medical/psychiatric staff of the detention center.
 - Health services are delivered by a licensed, Master's level clinician who is responsible for providing bio-psycho-educational treatment in individual and/or group sessions.
- Case management services conducted by an individual with a minimum degree of baccalaureate who provides coordination of services while the consumer is incarcerated as well as development of an aftercare plan with the consumer in making community referrals, advocating "mainstream" services, and establishing

communication for monitoring the receipt of treatment upon re-entry to the community.

- Education detention center staff members, community mental health providers, and appropriate stakeholders with regard to the needs of this population.
- Maintain communication with courts, parole and probation, and community based providers to provide information about MCCJTP.

Trauma, Addictions, Mental Health, and Recovery (TAMAR)

TAMAR is a State funded program offered to women who are detained in Caroline and Dorchester detention centers. These women have been identified or self-identified as having a history of physical and/or sexual abuse and a recent treatment history for a mental health condition as well as a drug use/abuse disorder. Individuals eligible to participate are encouraged to voluntarily join the program with the knowledge that participation does not in itself reduce jail time.

- Program services are delivered by a licensed, Master's level clinician who is responsible for providing bio-psycho-educational treatment in accordance to the TAMAR program manual.
- Case management services are to be conducted by an individual with a minimum degree of baccalaureate and provide coordination of services while the consumer is incarcerated as well as development of an aftercare plan with the consumer in making community referrals, advocating "mainstream" services, an establishing communication for monitoring the receipt of treatment upon re-entry to the community.
- Ensure the education of detention center staff members, community mental health providers, and appropriate stakeholders with regard to the needs of trauma survivors.
- Maintain communication with courts, parole and probation, and community based providers to provide information about TAMAR.

VETERANS INITIATIVE PROGRAM

Maryland’s Commitment to Veterans is a 3 year national model, pilot project funded by the State of Maryland in partnership between the Department of Health and Mental Hygiene, the US Department of Veterans Affairs, Maryland Department of Veterans Affairs, and the Maryland National Guard and Defense Force. The project offers resources to Maryland’s veterans who have not been able to obtain timely access to mental health, psychiatric and/or substance abuse services through the US Department of Veterans Affairs. Regional Resource Coordinators will work with veterans and family members to access these important services.
Call toll free 1-877-770-4801 for more information.

PUBLIC MENTAL HEALTH SYSTEM (PMHS)**

At MSMHS we know that you may have other questions or concerns that this guide does not answer. Please call the 24-hour, toll-free help line at ValueOptions: **1-800-888-1965**

ValueOptions is the organization under contract with MHA to process claims, enroll consumers, preauthorize medically necessary services, credential providers and pay claims.

EVERYTHING IS CONFIDENTIAL

All staff must follow strict rules and follow all laws and regulations about releasing consumer information. A consumer must provide written authorization before information is released, unless a psychiatric emergency or law shows otherwise. No one can obtain information from the PMHS about your care unless they are part of the Public Mental Health System providing or managing your health care services.

How do I know if I need help?

You may need help if:

- you can't cope with daily life;
- you feel very sad, stressed or worried;
- you are not sleeping or eating well;
- you want to hurt yourself or others; and/or
- you are troubled by strange thoughts or strange sounds (e.g., hearing voices).

How do I know if my child needs help?

Your child may need help if he/she:

- has trouble concentrating;
- loses interest in activities;
- withdraws from friends without explanation;
- shows dramatic changes in sleeping and/or eating;
- is preoccupied with death or violence;
- is frequently aggressive; and/or
- shows a decline in school performance.

Can the system help me?

You can get help if you need mental health care and receive Medical Assistance. You may be able to get help if you have limited income, but do not qualify for Medical Assistance.

If you do not have Medical Assistance, you may need to pay a portion of your care. Your provider can help you determine how much you need to pay, if any.

If you need assistance, contact MSMHS at **410-770-4801**.

How can the system help?

Your benefits include the following:

- A toll-free number for assistance or to answer questions 24-hours-a-day, 7-days-a-week at 1-800-888-1965;
- Help in an emergency or a crisis;
- Many types of mental health services; and,
- A Care Management Team ready to understand your needs and assist you in finding the help you need.

Contact your Managed Care Organization (MCO) to make sure your physical care needs are addressed.

How to use Maryland's PMHS toll-free Help Line?

One call provides access to all services, 24-hours-a-day, any day of the year. Call for help or information about:

- Emergency help around the clock, every day of the year;
- Information about the program benefits and services;
- Obtaining mental health services.

Who will take the call?

A Client Service Representative (CSR) will answer the phone. They will ask for general information such as your name and the reason for calling. If treatment is needed, you can speak with a Care Manager.

A Care Manager coordinates the services to be provided. They are experienced and licensed and will help you get the best care possible.

What types of services are covered?

Maryland's PMHS is positioned to meet your mental health needs anywhere in the state. Covered services may include:

24-Hour Crisis Help	Mobile Treatment	Rehabilitation Services
Day Treatment	Other Community-Based	Residential Treatment
Hospitalization	Outpatient	Respite
Intensive Outpatient Services	Outpatient Therapy	Supported Living
Intensive Support Services	Partial Hospitalization	Targeted Case Management
Mental Health Services	Residential Rehabilitation	

****Please Note: All of the above services may not be available to all consumers.***

How to get help?

When you think you might have a mental health problem, getting help may be urgent. You can obtain help quickly in these ways:

- Call ValueOptions at any time of the day or night, seven days a week. They will arrange for the right type of service to meet your needs.
- During business hours, you may call or walk into any Public Mental Health System provider in your area to request services.
- Your Managed Care Organization (MCO) or Primary Care Physician may refer you to ValueOptions for mental health care.

If you're not sure what to do, call ValueOption: 1-800-888-1965

Getting Care Approved

ValueOptions must approve a service before a provider can give you care. They approve services that will best meet your needs.

Services are approved because they are:

- Appropriate for your needs;
- Provided in the setting that gives you the most freedom; and,
- Believed to be the most helpful.

Emergency Care

If you believe you or a family member has an emergency, you should go to the emergency room closest to your home or call 911. If you are not sure, be safe: Call the Life Crisis Hotline at 1-800-422-0009 OR 410-749-HELP to discuss your concerns. Additionally, you can call the ValueOptions help line at. You will be helped to assess the seriousness of the situation and assisted in obtaining care right away.

Emergency rooms in the Mid-Shore region are:

- Chester River Health System, 100 Brown Street, Chestertown, MD
- Shore Health Systems at Dorchester General Hospital, 300 Byrn Street, Cambridge, MD
- Shore Health Systems at Memorial Hospital at Easton, 219 South Washington Street, Easton, MD.

Claims and Payment

The Care Manager at ValueOptions consults with your provider to develop a care plan. If hospitalization is needed, the Care Manager approves a certain number of days. ValueOptions will monitor your care and work with your providers.

ValueOptions will pay providers for the services that you receive. If you do not receive Medical Assistance, you may be asked to pay part of the fee based on your ability to pay.

MEDICAL ASSISTANCE INELIGIBLE

Medical Assistance Ineligible (MAI) consumers are individuals for whom, because of the severity of mental illness and financial need, the cost of medically necessary and appropriate mental health services will be subsidized by the **Mental Hygiene Administration (MHA)**. The benefits are subject to the availability of funds appropriated to the MHA. The term 'benefit' as referred to MAI consumers does not guarantee rights to services. The term 'uninsured' refers to consumers who have no insurance.

Medical Assistance Ineligible (MAI) consumers may be served in the PMHS if they meet one of the following criteria:

- Meet the criteria for Pharmacy Assistance;
- Have been served in the PMHS before 7/1/2002;
- Are currently homeless;
- Have SSDI with a Mental Health Disability;
- Are on Conditional Release from MD Medicaid Psychiatric Hospital;
- Have been discharged from a Maryland Medicaid Psychiatric Hospital within the last three months; and/or
- Have been released from prison within the last three months.

Eligibility Requirements

In order to be eligible for benefits, an applicant must be a citizen of the United States with a valid social security number or be one of the following:

- An alien who is lawfully admitted for permanent residence;
- An alien who is permanently residing in the United States under order of law, in accordance with the provisions of the Immigration and Nationality Act, 8 U.S.C. 1011, *et seq.*, including an alien who is lawfully present in the United States under 212(d)(5) of the Immigration and Nationality Act, 8 U.S.C. 1182(d)(5);
- An alien lawfully admitted to the United States on or after April 1, 1981, under the Refugee Assistance Act of 1980, PL 96-212, 8 U.S.C. 1521-1525, and who has resided in the United States for less than 36 months;
- An alien who has been granted (and maintains) temporary lawful residence status under Section 245A of the Immigration and Nationality Act, P.L. 99-603, 8 U.S.C. 1255a, and is in one of the excepted groups; or
- An alien who is a pregnant woman or child and has permanent residence and/or has been lawfully granted temporary resident status.

Residency

In order to be eligible for benefits, an applicant shall be a resident of Maryland. An applicant is a resident of Maryland if, at the time of application, the person is voluntarily living in Maryland with the intention of making Maryland the applicant's home. If an applicant has entered the State for a temporary purpose and is not intending to become a resident of Maryland, the applicant is not eligible. Residency is retained until abandoned. Temporary absence from the State with the intention to return to the State does not interrupt continuity of residency.

Services

Psychiatric Rehabilitation Services for MAI Consumers:

To be eligible for psychiatric rehabilitation and residential rehabilitation services, the consumer must be in the target population. Target population is defined as those

children, adolescents and adults for whom, because of the seriousness of their mental illness, extent of functional disability and financial need, the Department has declared priority for publicly funded services.

Target population includes:

Child or Adolescent with serious emotional disturbance, a condition that is:

- Diagnosed with a mental health diagnosis, according to a current Diagnostic and Statistical Manual of the American Psychiatric Association and;
- Characterized by a functional impairment that substantially interferes with or limits the child's role or functioning in the family, school or community activities.

Adult with a serious and persistent mental disorder which is:

- Diagnosed according to a current Diagnostic and Statistical Manual of the American Psychiatric Association and;
- Characterized by impaired role functioning on a continuing or intermittent basis for at least two years.

Outpatient Services for MAI Consumers:

For outpatient services, the consumer must have a Pharmacy Assistance Program Card or meet the criteria for Pharmacy Assistance and have an urgent need for immediate outpatient services.

Application/Registration Process

Requests for services for MAI consumers can come from the provider or the consumer by calling ValueOptions at. ValueOptions will conduct a preliminary assessment over the phone to establish that the consumer is eligible to receive services in the PMHS. The consumer will then be referred to a provider according to his or her level of need (routine, urgent or emergent). A provider could also request services for MAI consumers through Care Connections. Requests will be forwarded to the CSA for review and authorization.

Special Circumstances

A co-pay for services may be required.

INFORMATION ON ENTITLEMENTS
(Public Mental Health System)

INCOME SUPPORTS

Federal Level:

1. **Supplemental Security Income (SSI-Title XVI):** This federal government income supplement is for those who meet the Social Security Administration's (SSA)

requirements for financial need due to disability, blindness, or age, and have no substantial history of employment. As of January 1, 2006, the maximum monthly benefit available to an individual was \$603; for a couple \$904. If you are found eligible for SSI, you are automatically eligible for Medical Assistance.

2. **Social Security Disability Insurance (SSDI-Title II):** This federal government income support is also for those who have met eligibility requirements for disability, but is based on the amount and recency of one's past earnings. If the amount of the SSDI benefit is below \$504 per month, it is possible to receive SSI as well. Benefits from a spouse's record can be granted to a disabled widow over age 50, even if the widow has never been employed. Individuals who are disabled prior to age 18 may be able to draw on a disabled, deceased or retired parent's claim indefinitely.

For both of these entitlements, there is a complicated application process and several eligibility requirements that must be met. The application process begins by contacting the local Social Security Office located at 828 Airpax Road Suite 500, Cambridge, Maryland 21613; website: www.ssa.gov/work/Resources/ToolKit/redbook.pdf; 410-228-8811 or 1-800-772-1213; to request full information as well as forms to be mailed to you, and to schedule an appointment.

Information that you will need to submit:

- Original social security card and proof-of-age documents (no copies accepted).
- Full medical information including name, address and phone numbers of all physicians, hospitals, clinics, etc., that have provided treatment. This is needed to document your disability.
- Summary of employers and type of work performed during the previous 15 years.
- Copy of the previous year's W-2 form from any employment.
- Proof of marriage, if the spouse is applying.

It is recommended that the completed application and all accompanying and subsequent documentation be **HAND DELIVERED** to the Social Security office rather than mailed. You should request a receipt or some documentation from SSA.

If you are applying for SSI, you will also need full information regarding financial assets (bank accounts, stocks, bonds, trust accounts and burial accounts or trusts, etc.). If you are living with family who helps to support you, the monetary award will be less. Families are often contacted regarding how much support they provide. If a recipient of SSI obtains employment, Social Security must be notified immediately.

Social Security considers many factors in making awards, including ability to work and diagnosis. Some diagnoses qualify a person automatically; others require substantial documentation and may require a physical examination by a physician under contract to the Social Security Administration.

The process of determining your disability is the same for SSI and SSDI. The process takes approximately 120 days and will include consideration of your ability to work in jobs other than the kind you may have done prior to becoming disabled. For medical determination, Social Security uses the Disability.

HEALTH INSURANCE

Medicare - An individual becomes eligible for Medicare after receiving SSDI for 24 months or if over 65 years of age. Part A provides hospitalization coverage at no cost to the recipient. Part B is optional and covers other medical expenses on a co-payment schedule of 80/20 percent. The cost of Part B (\$43.60) is deducted from the monthly Social Security check.

Medicaid (Medical Assistance) - This health insurance is a joint federal and state entitlement available to those who meet requirements of income and documented expenses. It is provided automatically for recipients of SSI by the state and to TEMHA recipients on a temporary basis. In some cases, it is available to those with very high medical expenses on a spend-down basis. If the individual receives Medical Assistance as the primary insurance, he/she would access services in the Public Mental Health System when treatment exceeds the ability of the primary care physician to provide or when the individual needs rehabilitation services funded only by the Public Mental Health System.

Since July 1997, somatic health care under Medicaid has been administered through a program called HealthChoice. If you receive Medicaid, you will need to select a primary care physician to address your medical needs. The change does not apply to those in nursing homes or who receive Medicare and Medicaid.

All recipients will have to choose one of the HealthChoice approved Managed Care Organizations (MCO).

The Maryland Children's Health Program (MCHP): On April 28, 1998, Governor Glendening signed a law that created the Maryland Children Health Program which provides health insurance coverage for average to low income children and pregnant women. Those eligible will be included in the Health Choice program. The new program began on July 1, 1998. Children under the age of 19 and pregnant women of any age are eligible for the program if they have a family income that is at or below \$22,422 for a family of two, \$28,231 for a family of three or \$34,040 for a family of four.

The following medical services are covered under the program: hospital care, prenatal doctor visits and hospital delivery bill, home health, mental health, drug and alcohol abuse services, prescription medicines, dental and vision care, shots, lab work and tests, doctor visits, check-ups and specialty care

You may obtain an application from your county health department or Department of Social Services. For further information, call 1-800-456-8900. Determination Services Agency in Towson, Maryland. If benefits are denied, there is an appeal process available.

Both SSI and SSDI programs have a variety of work incentives to encourage individuals with disabilities to re-enter the work force while maintaining their benefits. Information about these programs can be obtained from the local Social Security office or from a vocational counselor in an approved vocational program.

Employed Individuals with Disabilities Program (EID): This program offers Medical Assistance benefits to those with disabilities who work. All Medical Assistance services are covered including prescription drugs. This program has higher income guidelines than any other Medical Assistance program. There is a fee of \$75 to enroll in the program and you must enroll every six months. If you cannot afford the fee you can request a waiver. You may stay in the program as long as you qualify. If you lose your job for reasons beyond your control you may remain in the program for four months after the end of your employment.

Primary Adult Care (PAC): This program provides coverage for outpatient services for adults over 19 who have limited income. Under PAC you will get free visits to a family doctor and low cost or no cost prescriptions. This plan does not cover admissions to a hospital. Recipients pay a small co-pay and have to meet income and asset guidelines. Call 1-800-226-2142 for an application/information. Available to qualified Medicare beneficiaries whose income is low, but too high to qualify for Medical Assistance.

Maryland Health Insurance Plan (MHIP): MHIP is a state administered health insurance program for Maryland residents who do not have access to health insurance. You may be eligible if:

- Are not eligible for group health coverage or any other government sponsored health insurance coverage.
- Have exhausted all available group coverage or moved into Maryland from another state's high-risk pool.
- Have, or have been offered, health insurance that provides limited coverage or excludes coverage for specific medical conditions.
- Are receiving unemployment benefits because your job was eliminated because of the effect of foreign imports on your employer or receive pension benefits from the Pension Benefit Guaranty Corporation..
- Have been refused individual health insurance for medical reasons or have a specified medical condition.

State Level:

1. **Public Assistance for Adults:** This personal needs allowance is designated for individuals who reside in Residential Rehabilitation Programs (RRPs) funded by the Public Mental Health System. Yearly re-application is necessary. The amount available is small (\$82 per month in 1999). Apply through local Department of Social Services office.
2. **TEMHA - Transitional Emergency Medical and Housing Assistance:** A short-term program for individuals who can document a disability and who have no income and very few resources. This program provides a small monthly cash allotment (maximum \$185 per month) during which time you are required to apply for Social Security benefits. If you are denied benefits, free legal assistance is provided. It is considered a loan and must be repaid: a) by the individual if the disability lasts less than one year, or b) from the individual's Social Security back-benefit award when granted.
3. **TCA - Temporary Cash Assistance to Families with Dependent Children:** This income support program is administered by the state through the Department of Social Services. This time-limited program provides temporary cash assistance to someone with a child six months or older and the recipient is required to actively participate in seeking employment.
4. **Energy Assistance, Food Stamps, and the WIC (Women, Infants & Children) Program:** All these programs offer specific, limited support with varying eligibility requirements. Information regarding Energy Assistance and Food Stamps can be obtained through the Department of Social Services. The WIC program provides formula, milk and pabulum for new mothers in need. This program can be accessed through your local Health Department.

Providing Services through the Public Mental Health System

To become a provider under the Public Mental Health System, your first step is to contact Medical Assistance (MA) Provider Enrollment at 410-767-5340 to obtain an MA Number. At the same time, you should contact the Office of Health Care Quality at 877-463-3464 to obtain an application packet.

Any provider who is authorized under Health Occupations Article to provide mental health services or is licensed, approved, or certified, has the requisite experience and complies with Medical Assistance and Mental Health Regulations can be a provider in the PMHS.

In order to provide and bill for services under the PMHS, providers must be enrolled in APS Care Connections System. Information about ValueOptions and how to enroll in the APS Care Connections System can be found at <https://www.valueoptions.com>

Value Options: 1-800-888-1965
Provider Relations: 410-277-0513, Ext. 13

Following enrollment, providers will be supplied with the Public Mental Health System Provider Manual and other training materials.

GRIEVANCES AND APPEALS

If you or your provider do not agree with a ValueOptions decision about your care, you may appeal. The appeal process can include three levels of review. Care Managers must ask the opinion of a physician advisor before care can be denied and must offer an alternate plan to the services being requested.

LEVEL I: You or your provider may ask for a review by the physician advisor. The decision is made within 24 hours of the request unless it is urgent. In this case, the decision is made within one hour of the request.

LEVEL II: If either you or your provider is not satisfied, you may request within three business days a second opinion from ValueOptions Medical Director. Requests may be made in writing or by phone. More information may be shared and discussed during this time.

LEVEL III: If either you or your provider is still not satisfied, you may request an opinion from MSMHS. A decision will be made within ten working days, unless it is urgent. In this case, the decision is made within five working days. During review by MSMHS, care will continue to be provided to you.

Medical Assistance recipients also have the right to appeal to the State Office of Administrative Hearings (11101 Gilroy Road, Hunt Valley, MD 21031; 410-229-4100) at any point during the appeal process.

Consumers who do not have Medical Assistance can appeal to the Mental Hygiene Administration.

COMPLAINTS

If you are not satisfied with a provider, services or the mental health system, call toll-free 1-800-888-1965. ValueOptions will assist you and refer your call or issue to the appropriate party.

You may also call MSMHS at 410-770-4801 and we will assist you.
